

CHILDCARE SOLUTIONS FOR YOUR GROUP

There are several different childcare solutions for small groups. The best solution is the solution that works best for your small group. If your group needs a childcare solution, please consider some of the following suggestions:

- Each group member needing childcare finds a solution on their own. (grandparents, babysitter etc.)
- If the host home can accommodate a dedicated space for children, the group can hire a babysitter(s) and split the cost amongst those needing the sitter(s).
- If the host cannot accommodate a dedicated space for children, but you want to use the above method, ask the group if there is another group member's home nearby that could host the kids with a hired sitter.
- Another option is to have group members rotate childcare duties on a schedule. It is best to schedule pairs of two women, or two men instead of married couples. This way, those on kid duty still have opportunity to build community even though they are not a part of the group discussion that week.
